Manor Medical Centre, 189 Kelvin Dr, Morningside Manor

Dear Parents, Patients and Guardians

I graduated as a speech therapist and audiologist at the University of the Witwatersrand and completed my community service at Chris Hani Baragwaneth Hospital.

I am a dynamic speech therapist with a passion for treating children. I aim to help address children's speech, language and feeding difficulties through a holistic approach which includes the child, therapists, teachers and most importantly, the family.

I address a variety of difficulties from mild articulation errors to more complex disorders such as autism, oral motor difficulties or neurological difficulties. All of the above can be targeted through natural learning techniques during play so your kiddies will have a lot of fun!

I have a passion for feeding therapy from babies who are unable to suck to children or adults who are fussy eaters or unable to swallow. Eating is such an integral part of quality of life. I love to help people to eat, socialise while eating or to help a parent feed their child.

Services offered include:

- Articulation and Phonological Disorders
- Expressive Language
- Receptive Language
- Speech Fluency and Stuttering
- Voice and Resonance
- Pragmatic Skills
- Cognitive-Communication Skills
- Augmentative and Alternative Communication (AAC)
- Swallowing and Feeding including VitalStim Plus Therapy
- 

If you require further information or would like to set up an appointment please contact me via:

T: 082 513 0325

E: ashira.segal@gmail.com.

Looking forward to working with you, your child and family!

Kind regards,

Ashira Segal
