Dear Patients

We find ourselves in incredibly difficult, emotional and challenging times. South Africa, and the world, is in the process of undergoing sudden and radical change.

At Manor Medical Centre, we will continue to offer our patients physical and psychological support and treatment. We are following the regulations set by The Health Professional Council of South Africa. Therefore, as an essential service, we will remain open and accessible to our patients within their guidelines.

We have extended our level of care to comply with social distancing and the **LOCKDOWN** by offering **TELEMEDICINE CONSULTATIONS**. This is a service that has been requested by our patients and we will offer this **BY APPOINTMENT ONLY** subject to practicality and availability. Appointments to be arranged with our reception staff on **011 802 5338**.

The doctor will access your existing file during the WhatsApp Video Call so that medical assessment, diagnosis and treatment will be as accurate and appropriate as possible given the circumstances.

There will be a consultation fee payable for this service. Should you wish to make use of this service please sign the attached form and return via email to [filling@docsa.co.za](mailto:filling@docsa.co.za) so that your file can be placed in readiness should it be required.

**For all doctors' appointments, please phone reception before coming into the rooms.**

We hope to see a swift end to this emotional and difficult time, and may peace and calmness prevail.

May God bless us all.
